IMPORTANT NOTE FOR MARE OWNERS:

It is my understanding that when breeding a Registered AT Sport Horse mare, either a Registered Purebred (100%) AT stallion **OR** a Registered AT Sport Horse stallion may be used to produce a foal eligible to be Registered as an AT Sport Horse, as long as the resultant foal meets the 50% AT Blood requirement to register it as such;

AND

It is my understanding that when breeding a mare who has no akhal teke blood, it is a requirement both in the US and in Russia that the stallion used be a Registered Purebred (100%) AT Stallion, again so that the resultant foal meets the 50% AT Blood requirement needed to register it as an AT Sport Horse.

Disclaimer: The information herein has been supplied to us by the owners and/or agents for owners of the horse presented. We are not responsible for any errors or misleading information stated about any individual horse.
